CALIFORNIA P.O.S.T. CERTIFIED COURSE

The investigative technique of geographic profiling analysis allows law enforcement to analyze crime locations to determine probable offender location. Through an interactive and hands on approach, students will analyze cases and apply these techniques to a variety of crime trends. This class is specifically designed for law enforcement investigators as well as crime and intelligence analysts.

Course Topics

Environmental Criminology

Behavioral Geography

Mental Maps

Crime Pattern Theory

Routine Activity Theory

Serial Crimes

Criminal Hunting Methods

Case Linkage Analysis

Practical Application
