Real Time Crime Analysis
The Analyst's Role in Real Time Crime Operations

Master the core skills of Real Time Crime Analysis. This in-person hands-on course equips attendees with an understanding of how to support field personnel with analysis in real time. Learn how to provide actionable intelligence using both LE and open source information and tools, work calls as they come in, and communicate with field personnel. This course gives you what you need to know about how to support active incidents where working quickly is vital. You don't need to be in a real time crime center to benefit from this one day course.

This is a great course for crime analysts, supervisors, real time center personnel, and anyone interested in conducting analysis in real time.

Cost: $200

Length of Course: 1 day (8 total hours)
