
ArcGIS Pro for Crime Mapping — Intro

This hands-on course provides students with an introduction to crime mapping techniques and is designed for students with little or no experience in crime mapping. Students use GIS technology analyze crime and known offender data by adding this data to a base map, querying data by attribute, identifying spatial patterns, and creating completed maps. Topics include working with ArcGIS and ArcCatalog, learning coordinate system basics, exploring layer properties, reviewing data fields and records, querying data using several different methods, and designing map layouts. Students who complete this course are able to add crime and offender data to a map, find patterns, and produce meaningful maps.

Level: Beginner

Cost: $450

Length of Course: 3 days (21 total hours)

Days	Dates	Times	Location
Monday-Wednesday	February 8-10, 2027	8am to 4pm	5801 E. Slauson, Commerce, CA

Registration:

Registration is on the Spatial Analysis Etc site at: https://spatialanalysisetc.com/arcgispro_intro/
